

Extendable LED

Important Safeguards

To guard against injury, basic safety precautions should be observed, including the following:

1. Read and follow all safety instructions and important notices in these instructions as well as on the product itself.

2. This appliance is not intended for use by children or infirm persons without supervision. Young children should be supervised to ensure that they do not play with the appliance.

3. To avoid possible electric shocks, special care should be taken since water is employed in the use of aquarium equipment. For each of the following situations do not attempt repairs yourself. Return the appliance to an authorised service facility for service or discard the appliance.

a. If the appliance or any electrical component of the appliance (non-immersible equipment only) falls into the water or gets wet, do not reach for it. Unplug it and then retrieve it.

b. If the appliance shows any sign of abnormal water leakage, immediately unplug it from the power source.

c. Carefully examine the appliance after installation. It should not be plugged in if there is water on parts which are not intended to be wet.

d. Do not operate the appliance if it has a damaged cord or plug, or if it is malfunctioning, or dropped or damaged in any manner.

4. A "drip loop" (see graphic) should be arranged for each cable connecting an aquarium to a power supply. The drip loop is the part of the cable below the level of the power supply. It prevents water travelling down the cable and coming into contact with the power supply. If the plug or the socket does get wet, do not unplug the appliance. Disconnect the fuse or circuit breaker that supplies the power to the appliance, then unplug and examine for presence of water in the socket.

5. Always unplug the appliance from the electrical outlet when not in use, before putting on or taking off parts, before any type of maintenance or cleaning.

6. Never yank the cable to pull it from the socket. Pull the plug carefully to disconnect.

7. Do not use the appliance for reasons other than the intended use. The use of attachments that are not recommended or sold by the manufacturer may cause the product to be unsafe. This is not recommended.

8. Do not install or store the appliance where it will be exposed to weather or temperatures below freezing.

9. Make sure any component mounted on a tank is securely installed before operating it.

10. Ensure input voltage is the same voltage as your local power supply.

11. If an extension cable is used it should have the proper rating. Care should be taken to arrange the cord so that it will not be tripped or pulled.

12. A G.F.C.I (Ground fault circuit interrupter) & surge protector is recommended for all electrical appliances.

13. Ensure your hands are dry when turning the power switch on/off and when inserting/removing the power cable from the socket.

14. If you are in any doubt about the electrical installation or safety of this product you must consult a qualified electrician.

For Guarantee Conditions, please refer to the Guarantee form that is enclosed with this product.

All products are supplied with fitted plugs. This plug should not be tampered with in any way or removed. Removal or tampering with the plug invalidates our guarantee offered with this product.

For UK a 3 pin adaptor is supplied with the product and this must be used.

Before First Use / Preparation

Read and follow all the instructions, even if you feel you are familiar with the product and find a place to keep the instructions handy for future reference. Your attention is drawn particularly to the sections concerning "IMPORTANT SAFEGUARDS" and the "GUARANTEE CONDITIONS". Please ensure you retain your original purchase receipt in the event that guarantee service is required.

Carefully unpack the light making sure you keep all the packing material until all the parts of the product have been found and the product has been assembled.

This product is shipped to you in a factory sealed carton. Should the product malfunction in any way or if the unit is damaged and requires replacement, contact the retailer where the product was purchased for inspection.

Installation

1. Adjust the mounting brackets on the light unit to suit the width of the aquarium.

2. Place the light unit on the aquarium, ensuring the mounting brackets are secure on the sides of the aquarium.

3. Ensuring your hands are dry, connect the power cable to the included power supply. Plug the power supply in at the power outlet.

4. Switch the power outlet on. Switch the light unit on using the switch on the top of the light unit.

5. Press the switch on the light unit to cycle through the colour modes as follows:

White on
Red/Blue on
All LEDs on
All LEDs off

Specifications

Model: 3.3W

Suits Aquariums: 16 - 23cm

Light Wattage: 3.3W

Power Supply Input: 100-240V AC, 50-60Hz, 0.2A

Power Supply Output: 12V DC, 0.5A

Suitable: Tropical, Coldwater

Model: 7W

Suits Aquariums: 20 - 35cm

Light Wattage: 7W

Power Supply Input: 100-240V AC, 50-60Hz, 0.2A

Power Supply Output: 12V DC, 0.5A

Suitable: Tropical, Coldwater

Model: 10W

Suits Aquariums: 35 - 50cm

Light Wattage: 10W

Power Supply Input: 100-240V AC, 50-60Hz, 0.2A

Power Supply Output: 12V DC, 0.5A

Suitable: Tropical, Coldwater

Imagitarium Manufacturer Guarantee

About this Guarantee

The Manufacturer or Distributor, of Imagitarium goods, is collectively known herein as "Imagitarium". Please refer to contact details for Imagitarium below or on the applicable Imagitarium website. Any product that is covered by its own Guarantee (as enclosed with the product) is subject to the conditions of that Guarantee.

Australian Guarantee

Important note: This guarantee applies in addition to the guarantees, rights and remedies conferred by the Australian Consumer Law and other applicable Commonwealth, State and Territory legislation. The guarantee does not exclude, affect or limit those guarantees, rights or remedies, except to the extent that their application may lawfully be excluded or limited.

In particular, our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

International Guarantee

The benefits given to the purchaser, under Guarantee, are in addition to all other statutory rights and remedies which the purchaser has in respect of goods under legislation in the applicable country of purchase. This Guarantee shall not affect any such rights and should be read subject to such legislation.

1.0. Terms and Conditions of Guarantee.

1.1. Imagitarium warrants to the purchaser, for 1 Year from date of original purchase, to repair or replace goods where fault is found due to defective materials or faulty workmanship and where goods do not operate in accordance with the instructions.

1.2. All claims for repair or replacement must be made at place of purchase.

1.3. The original and dated Proof of Purchase (receipt) must be supplied with all goods claims. Please also provide this Guarantee where possible.

1.4. All goods subject to claim under Guarantee should be prepared for transportation in the original packaging or other comparable packaging which offers the same degree of protection.

1.5. Where goods are repaired or replaced under Guarantee, these goods are Guaranteed for the remainder of either the original Guarantee or Extended Guarantee period.

1.6. Where claims on inspection reveal goods are in normal working order, Imagitarium will request reimbursement of all reasonable costs incurred.

2.0. Exclusions and Limitations

Where permitted by local law, the following exclusions and limitations apply in regard to Guarantee:

2.1. Goods claims where fault is due to, but not limited by a) misuse b) neglect c) abuse d) fire or flood e) normal wear and tear f) accidental breakage g) Acts of God h) mains voltage fluctuation or supply problems i) connection to any voltage other than what is stated on the rating plate j) modification or tampering to electrical cord or plug, k) vermin, insects or foreign object l) liquid spillage or submersion of goods not designed to sustain such use or duress.

2.3. Where inspections reveal goods are in normal working order including where noise or vibration is consistent with normal goods operation.

2.4. Attempted repairs or modifications by unauthorised persons, including but not limited to the drilling of holes in the aquarium glass by unauthorised persons.

2.5. Where the goods factory rating plate has been removed, altered, damaged or is rendered illegible.

2.6. Where goods are not installed, operated or maintained in accordance with Imagitarium's goods instructions, specifications or this Guarantee.

2.7. Replacement or repair of worn consumables or replacement of lost goods, parts or components.

2.8. Costs associated with goods transportation, removal, installation, postage or cost of insurance.

2.9. Any damage incurred whilst installing, transporting or moving the goods.

2.10. Subject to certain local statutory rights and obligations to the contrary, and this guarantee shall not affect those rights or obligations, where, to the full extent permitted by law: 1. all express and implied warranties and conditions under statute or general law, are expressly excluded and Imagitarium, where permitted, will limit liability as follows and at Imagitarium's option to: in regard to goods either a) the replacement of goods or supply of equivalent goods b) the repair of goods or the cost of replacing the goods or of acquiring equivalent goods OR in regard to services either c) the re-supply of services d) the cost to re-supply services.

3. Imagitarium LED light units are designed to last up to 5 times longer than conventional light tubes. All LED's are made up of multiple LED diodes and occasionally individual LED's can breakdown as with all LED devices. The effectiveness of your LED will not reduce as much as a conventional light tubes output would over a period of 6 months. We would replace a unit subject to the terms of the warrantee if more than 20% of the individual LED's have failed.

3.1. Imagitarium will not be liable for any loss or damage, including consequential loss or damage either directly or indirectly, or for any incidental expenses, of any kind, and in any way whatsoever unless conferred under the Australian Consumer Guarantee.

(1) consumables include items such as filter media/cartridges, impellers and shafts, light tubes, lamps, bulbs and starters.

This light unit is designed to help simplify general fish keeping. Please note, some specialist fish and aquatic animal or plant keeping require certain considerations, prior to purchase, to ensure proper and successful Aquarium keeping. Therefore, Imagitarium recommends, at time of purchase, that you consult with your Imagitarium Retailer in regard to the suitability of this product for the types of fishes, aquatic animals or plants you may wish to keep.
