SILK PLANTS

The next best thing to natural....
They are beautifully replicating natural plants found in the wild.
These high quality silk plants are an easy and low maintenance way to create stunning natural looking aquascapes.

The small and naturally textured weighted bases ensure the plants are kept in place and are easy to cover over with a thin layer of aquarium gravel. Multi Pack options are also available.

- Stunning designs replicating some of nature's best aquatic plants
- Diverse range of colours, shapes and sizes
- Multi Pack options available
